Martha,

Here's the merged minute – it includes tracked changes and my comments. In summary:

- ENERGY's minute had a lot of detail about the OPG next steps – my sense is that this detail would be deferred to the March report back on the GA smoothing mechanism.
- The RRRP approval is still a bit confusing (we don't have a good description that particular group of consumers). I think the combined minute gets us closer, but could use your eyes on it.
- There are also program design details (eg LDC fund) in the ENERGY minute – I've removed these (TB decisions).

If you switch views to look at the final, you'll see the ENERGY additions in blue text. This may be a way to show ENERGY the merged minute with their language included.

It would be great to get a TBS read of this minute before we send back to ENERGY. Over to you!

Megan

Hi Martha,

You beat me to the punch this morning! Thanks very much, this is helpful.

I'll take a first cut at merging the minutes. I'll track changes and send to you and Karen before we share with Keley.

In terms of editing the note – the new deck has options for Class B and tenants – but doesn't provide much more (or any) more detail on the rest of the pieces. I'll gladly combine feedback into the note over the rest of the weekend – so any comments or thoughts at this point will be helpful, and I can also provide a rollup by (probably very) late Monday of edits from you, TBS, ENERGY, our DM, PO. This will give you the chance early Tuesday to review before we send it back to the DMO and the PO.

Sound good, any changes to this plan?

Argh!!! We will have to merge the two I think. I won't be able to look until later I think

Hi Martha,
We actually drafted this minute working from the previous one provided. I think this version will answer a number of your questions. Our minute reflects the latest Cabinet Submission. Once you've had a chance to take a look, let us know if you have any questions. We can also review the minute you provided to see if anything needs updating in ours.

Thanks. I think that minute is an older one so would suggest using the one I sent this morning for review, we removed some of the detail and it incorporates some of Steven's feedback.

Happy Friday!
Attached is a draft of the rate mitigation cabinet submission as well as a draft minute. Let me know if you have any comments, in particular on the minute.

Thanks,
Keley
