Touché! I understand they are working to respond to all of TBS' questions to be ready. We will keep in touch with them and TBS throughout the day. I think if they don't go next week then they can't get the funding out for 16/17, which won't make some people happy...

Will they be ready? Seems to me there's lots to work out on this one yet (unless they've been working on this for a while already!).

Subject: affordability fund

Hi,

We understand that TBS is looking at adding the affordability fund to the TB agenda on March 6th and it would then need to fast track to cabinet on March 8th given it is year end etc. You may recall, although don't blame you if you have purposely deleted it from your brain, that Karen mentioned to us that they were thinking of discussing the affordability fund at TB on March 6th, they gave them enough to announce on Wednesday but the rollout etc is not approved yet. We understand TBS is looking at only \$100M in 16/17 but energy is still asking for the \$200M in 16/17.

We have let energy know they need to submit a fast track and have attached the draft submission.

Keep you posted on anything we hear on our end.
Thanks,
Martha
