**Subject:** updated note

Hi,

Here is the updated note - I largely accepted Energy's changes as they were factual or clarifications (e.g., consumers not customers). The one change to flag is the example for "consumers who receive more than one benefit" which they changed back to "8% rebate + proceeds recycling". Yesterday they said that combination was not possible because you could not be in RPP and receive proceeds. I don't think anyone is actually concerned about the duplicate benefit, as we discussed earlier in the week, but I think it is important to be clear about who is eligible for what. Your chart from earlier in the week still lays that out well and they have fact checked it so it may actually be worthwhile for the DM to have that backpocket in case last minute questions come up tomorrow.

This version of the note still includes the OCEB change, per emails earlier today. It does not have an updated TB/MBC minute yet - will add that when it lands.

Thanks,  
Karen
