

Question for Province: Fair Hydro Plan

FAO project: FA1710

1. Confirm elements included in Fair Hydro Plan (FHP).
2. Explain how GA refinancing will work, including
 - a. Specifically how bills will be lowered
 - b. What will be associated cash flows between Province, OPG/Trust, IESO, LDC, and ratepayers
 - c. How all entities involved will be affected (kept whole)
 - d. On an annual basis how will cash flows change over the next 30 years
 - e. Clarify what proportion of GA refinancing is contract renegotiation and what proportion is pure refinancing
3. Confirm shift of OESP and RRRP to Provincial funding is permanent
4. Confirm baseline from which 25% reduction in bills is calculated
5. Confirm that the definition of residential customers as relevant to FHP is synonymous with RPP customers.

Data Required by FAO

- Projected annual total cost of electricity service over the next 30 years absent of the Fair Hydro Plan broken down into:
 - Residential and non-residential ratepayers
 - Generation (separated into HOEP and Global Adjustment), delivery and wholesale market costs
- Projected annual fiscal impact of the OESP, RRRP, Affordability Fund and First Nations Delivery Credit
