Mr. Orsini, Mr. Davidson:

On behalf of our client, the Association of Major Power Consumers in Ontario (AMPCO), we are hoping to arrange a briefing session with you later this month or in early February regarding AMPCO's submission on Ontario's Long-Term Energy Plan. AMPCO President Colin Anderson and Chair Mark Passi would be in attendance, as well as perhaps others from the AMPCO board executive.

AMPCO represents large industrial power consumers from across Ontario and from a variety of different sectors (e.g., auto, forestry, mining, steel, etc). The intent would be to discuss measures in the attached submission that AMPCO members believe could be beneficial to help address electricity price sensitivity and to drive further cost savings in the system. AMPCO is also preparing additional thoughts for consideration, both on program recommendations for large industrial stakeholders in the province, as well as pertaining to IESO Market Renewal.

Let me know what you think and if we can set something up.

Thanks again, and please let me know if you would like any additional information.

Sincerely,  
Sarah
