Subject: Additional Research Request...

Good Afternoon:

Greetings from Greater Sudbury.

Got an information request from Premier's Office (PO) regarding the rate mitigation regime that was announced earlier this year in the Speech from the Throne (SFT), as follows:

- Considering R1 (middle rate class - H1), please model 5%; 10% and 15% reduction to distribution rates. Assume RRRP implementation. Show cost to UR customers as well as Class A and Class B customers, please? Other considerations should be listed, perhaps, but no need to get into full detail on implementation considerations.

Many thanks, in advance.

Andrew Teliszewsky
