B. Letter to Mayo Schmidt (Hydro One)

that you provided about upcoming regulatory process

- East West Tie (need LSB to craft a careful paragraph about what the next step is, send them to OEB and IESO)
- Redesign Action Plan; your help and leadership has been critical. Looking forward to the updated bill to help consumers better understand and appreciate their use and account.

C. Letter to Enwave

To: John Peri and Carlyle Coutinho

Thank you for taking the time to meet with me and my staff. It was an insightful discussion to get Enwave's perspective on:

- the value that district energy systems
- exploring non wires solutions
- and recognizing the value that energy displacement could bring to the province

I appreciated the update on the conversations that you have been undertaking with the Ministry of Energy, the Ministry of Environment and Climate Change as well as the IESO to further investigate how enwave can be a part of the solution. I look forward to our continued discussions and updates on how these conversations are progressing.

For greater clarity, CoS would like to see and review A & B - ideally late next week, for processing, please?

Many thanks, in advance.
