We've been working with Guy this week on a final round of edits to the transfer payment agreement; he has asked about Ministry feedback on their draft brief. Let me know your thoughts on providing feedback. If our comments are substantial, we may want to arrange a meeting or call.

Subject: Draft Ivey Policy Brief on generation costs

Dear Serge,

Please find attached a complete draft Policy Brief on generation costs in Ontario. It is quite lengthy, so one option would be to separate out the final section on capacity markets into a separate Policy Brief.

We will be making further edits to this draft in the coming week. All comments and feedback from your team would be appreciated. We will also be asking for input from the IESO team we met with in January.

Please let me know if you would like to have a telephone call or visit to discuss further.

Best wishes,
Guy
