Subject: FW: Fair Hydro Plan: preliminary items for discussion tomorrow

FYI – please see attached an early read on what the FAO team will be looking for from us at tomorrow's meeting.

I think the background technical deck and other materials Energy is bringing to the meeting will answer a lot of these questions. With respect to the second part, the data request, this is likely to be forthcoming post-meeting in the form of a letter from the FAO to the DM's of Energy and Finance. As part of tomorrow's discussions, the FAO will be looking for advice on whether this data request is: (1) available; (2) is the right data set/universe to be requesting, given the area they plan to study. We should collectively be prepared to offer our advice on that - - as once the data request is officially received, we'll need to fulfill it.

See you then.

Subject: Fair Hydro Plan: preliminary items for discussion tomorrow

Hi Tim,

We've prepared some questions for preliminary discussion tomorrow. We've also included a list of some of the information we will likely be requesting for this project as a heads up and perhaps for discussion as relevant.

Kind regards,

Peter
