Hi Martin,

Slide 2 – was that meant to say “Ontario Fair Hydro Plan” instead of “Long-Term Energy Plan”?

Slide 3 – we should identify the risk of projected bill increases after the inflationary cap ends. (Appreciate this is on the OFHP slide as well, but bears repeating on LTEP).

Thanks,
Craig

Hi Andrew,

Please see below. CO has been asked to prepare a priority file update for their DM to present to PDG on September 14. For Energy, this means the OFHP and LTEP. We have been asked to review and provide edits by noon tomorrow.

Attached are coordinated edits from staff across divisions.

Let us know if you are ok with us sharing with CO.

Thanks,
Martin

Hi Martin:

CO has been asked to prepare a priority file update for our DM to present to PDG on September 14. For Energy, this means the OFHP and LTEP. I have completed the template and have attempted to even populate some "measures of success" as placeholders and initial ideas.

I do not want to be putting forward unsupported or inappropriate performance measures, so please have staff review these carefully and they should feel free to delete what is there and propose others as appropriate. More specific the better, if possible, but also keeping in mind the space restrictions.

Unfortunately, we are being asked to have this ready for Thursday afternoon, so please provide edits and suggestions by noon Thursday.

Thank you,
