---

Deputy,

Following SNAP and IESO's general meeting with MNO earlier this year on Energy issues, there was a commitment to provide answers to some of the questions raised in the meeting.

Attached is a QnA document on those questions.

After review, staff plan to share this document with MNO leadership (COO Joanne Meyer, Bonnie Bartlett the IESO MNO staff person [who represents MNO and Métis energy related issues] and Marlene Davidson [President of the Atikokan Métis Council]).

It is staff's understanding that Joanne Meyer will distribute the Q&A to the entire MNO organization, including attendees of the Feb. 22 meeting and potentially share up the line to Margaret Froh, President of the MNO.

OK to share with MO?

**Jeet**
