Hi. It does include the 8%, that is why we've been labeling it "updated OPO". The original OPO didn't include the 8%.

The previous version also included the 8% and the updated OPO label.
Hope that helps,

OK, it looks like it might include the 8 per cent rebate.

Hi. slide three has been revised based on the rate forecasts using the IESO February forecast.

The version in this 12:30 deck was based on the IESO December forecast.

I can check with Tim. Steen

Is slide 3 correct? DM doesn't think OPO comes close to 180.
