

Fair Hydro Financing Plan Act, 2017

EXPLANATORY NOTE

[Insert explanatory note.]

1. (1) Subsection 79 (4) of the *Ontario Energy Board Act, 1998* is repealed and the following substituted:

Liability for compensation

(4) All consumers are required, in accordance with the regulations, to contribute towards the amount of any compensation required under subsection (3) that is not otherwise provided under subsection (4.1).

Payments for certain classes

(4.1) Compensation required under subsection (3) shall be provided with respect to one or more prescribed classes of consumers who receive rate protection under this section, in a manner provided for in the regulations.

[“shall” is unusual in a provision of this type, since it puts an obligation on the government to make regulations, and to make regulations about something where the funding is to be subject to a yearly appropriation]

Money appropriated by the Legislature

(4.2) The compensation provided for in subsection (4.1) shall be paid for out of the money appropriated for those purposes by the Legislature.

Information, etc.

(4.3) If provided for in the regulations, the Board, the IESO, distributors, or any of them shall provide such information and reports to the Ministry of Energy and to one another as are necessary to facilitate the implementation, administration, funding and delivery of the rate protection or of anything else provided for in this section.

(2) Clause 79 (5) (e) of the Act is repealed and the following substituted:

- (e) prescribing rules respecting the amounts that must be collected to compensate distributors, taking into account any compensation provided under subsection (4.1), including rules,
 - (i) respecting the calculation of those amounts,
 - (ii) respecting the calculation of any off-set to the liability of consumers under subsection (3) having regard to those amounts,
 - (iii) establishing the time and manner of collection,

- (iv) requiring the amounts to be paid in instalments and requiring the payment of interest or penalties on late payments,
 - (v) prescribing methods of ensuring that the amounts required cannot be bypassed, and
 - (vi) respecting the distribution of those amounts;
- (e.1) prescribing classes of consumers for the purposes of subsection (4.1), and governing how the compensation is to be provided with respect to the rate protection provided to them, including, without restricting the generality of the foregoing, requiring the IESO to receive payments or amounts from the Minister of Energy and to make payments to licensed distributors or to prescribed persons;

2. (1) Section 79.2 of the Act is repealed and the following substituted:

Rate assistance

79.2 (1) The Minister shall make provision for rate assistance for rate-assisted consumers having regard to their economic circumstances, and where the Ministers makes such provision, shall do so out of the money provided for in subsection (4).

OESP

(2) The program known as the “Ontario Electricity Support Program” in English and “Programme ontarien d’aide relative aux frais d’électricité” in French is continued for the purpose of providing rate assistance to rate-assisted consumers having regard to their economic circumstances.

Administered by Board

(3) The Ontario Electricity Support Program shall be administered by the Board.

Money appropriated by the Legislature

(4) The money required for the purposes of the Ontario Electricity Support Program shall be paid out of the money appropriated for those purposes by the Legislature, once the amounts recorded in the variance account referred to in subsection (5) are no longer sufficient to provide for the funding of the program when taken on their own.

Variance account

(5) The money required for the purposes of the Ontario Electricity Support Program shall be provided out of the variance account maintained by the IESO under the Program as it existed before the coming into force of [**** reference to section number of bill**]

until the amounts recorded in the account are no longer sufficient, when taken on their own, to fund the Program.

Variance account depleted

(6) The IESO shall provide the Ministry of Energy with advance notice, on a timely basis, of the time the IESO estimates that the amounts reflected in the variance account would be less than the amount required to meet its obligations related to funding the Ontario Electricity Support Program for the upcoming month.

How provided

(7) Rate assistance provided under this section shall be provided with respect to consumers prescribed in the regulations, and shall be provided at the times provided for in the regulations and in the amounts and in the manner provided for in the regulations.

Payments with respect to prior use

(8) The regulations may require provision of rate assistance to prescribed classes of rate-assisted consumers with respect to electricity consumed during a period prior to the date of the making of the regulation, but no such rate shall be required under the regulations with respect to electricity consumed before January 1, 2016.

Transitional

(9) The regulations may require the provision of rate assistance for a rate-assisted consumer with respect to a period prior to the date on which the consumer became a rate-assisted consumer if the consumer meets all of the criteria prescribed by the regulations.

Compensation

(10) A distributor, a unit sub-meter provider and any other person or entity that may be prescribed is entitled to be compensated for any lost revenue resulting from the provision of rate assistance under the Ontario Electricity Support Program.

[NTD-JPR for clients: Note re retailers (retailers of electricity): To this point in the draft, based on discussions with policy clients, “retailers” have not been expressly provided for as part of the OESP scheme. Please consider that and confirm that the policy is not to explicitly obligate retailers in regards to the main obligations around provision of OESP or the receipt of payments in respect of OESP from consumers they serve. I gather since the consumer always has the physical relationship with their distributor, unit sub-meter provider, etc. that referring to those entities is sufficient however confirmation is necessary as we’re just about to close off the drafting.]

Deemed licence conditions, IESO, settlements, payments, etc.

(11) Every licence issued to the IESO, a distributor or unit sub-meter provider or a retailer of electricity shall be deemed to contain conditions requiring the licensee to do anything necessary to implement and administer the provision of rate assistance under

this section as may be required by the regulations or the Board, including requirements with respect to,

- (a) making payments to the IESO, distributors, unit sub-meter providers and other persons and entities identified by the regulations;
- (b) receiving payments or other amounts from the IESO, distributors, unit sub-meter providers and other persons and entities identified by the Minister;

[ntd-jpr:Note for clients: In the previous draft, We had left a bit of residual OEB-related authority here relating to (at the end of) clauses (a) and (b) relating to identifying persons or entities to whom payments may be made or from whom payments are to be received. I have instructed OLC to remove the references to the OEB's authority here since it is inconsistent with our overall approach and scheme that places all of the OESP-related authorities in the hands of the Minister.]

- (c) requiring licensees to pass any rate assistance provided for under this section through to rate-assisted consumers in the manner provided for in the regulations;
- (d) engaging in settlement activities;
- (e) providing information to and receiving information from the Ministry of Energy, the Board, the IESO, distributors, unit sub-meter providers, retailers of electricity and any other prescribed persons and entities in the time and in the manner provided for by the Board or as may be prescribed; and
- (f) entering into agreements or arrangements with licensees and other persons.

Information, etc.

(12) If provided for in the regulations, the Board, the IESO, distributors, retailers of electricity and unit sub-meter providers, or any of them shall provide such information and reports to the Ministry of Energy and to one another as are necessary to facilitate the implementation, administration, funding and delivery of rate-assistance or of anything else required under this section.

Prior approval of advertising

(13) The Board must receive the prior approval of the Minister before making an expenditure in relation to the marketing or advertising of the Ontario Electricity Support Program which is above an amount prescribed in the regulations.

Conflicts, etc.

(14) Where any conflict exists between an order of the Board, a code issued by the Board or a licence condition and this section or a regulation made under this section, this section or the regulation made under this section shall prevail to the extent of the conflict.

Regulations

(15) The Lieutenant Governor in Council may make regulations governing anything dealt with in this section and without limiting the generality of the foregoing, may make regulations,

- (a) governing anything that is described in this section as being prescribed or as being provided for in the regulations or that is required to be done in accordance with the regulations;
- (b) governing the determination of classes of consumers who are rate-assisted consumers, including providing for different classes of rate-assisted consumers;
- (c) establishing rules for the calculation of the amount of the rate assistance to be provided, but no rule shall be based on electricity consumed before January 1, 2016;

[instructions said 2017, but I'm inclined to this 2016 works better because of the transition]

- (d) governing payments under this section;
- (e) setting maximum amounts of the total annual value of rate assistance that may be provided;
- (f) requiring a unit sub-meter provider or other prescribed person or entity to make or receive payments in respect of rate assistance, including requiring them to make or receive payments directly to and from consumers or other persons entitled to receive, or make payments toward, the rate assistance and prescribing the circumstances in which such payments are to be made and received as well as methods for determining the amounts payable or to be received;
- (g) requiring the IESO to receive payments from the Minister and requiring the IESO to make payments to the Board, to licensed distributors, or to prescribed persons, in respect of the rate assistance provided under this section and governing methods for determining the amounts payable;

[NTD-for clients: Note that “unit sub-meter providers” (and of course retailers) are not explicitly provided for in this list. A general authority to prescribe them into the list is present (“...or to prescribed persons”). – I

3. The Act is amended by adding the following sections:

Distribution rate-protected consumers

79.3 (1) The Minister shall provide for distribution rate protection to distribution rate-protected residential consumers having regard to the costs of the distribution of electricity to such consumers.

[NTD-for clients: for this provision and sub (3) below, the term “residential” appears in the provision. Does this cause problems or is that in keeping with your policy.]

Money appropriated by the Legislature

(2) The money required for the purposes of the provision of distribution rate protection under this section shall be paid out of the money appropriated for those purposes by the Legislature.

Maximum charge

(3) Despite any order of the Board, or anything else under this Act, where the regulations so provide, a prescribed distributor who distributes electricity to distribution rate-protected residential consumers shall not charge those consumers, or a prescribed class of those consumers, any amount for monthly base distribution charges more than,

Governor in Council, but any person so specially authorized shall not charge any fee for doing so.

Application of *Public Inquiries Act, 2009*

(9) Section 33 of the *Public Inquiries Act, 2009* applies to an inquiry under subsection (4).

Penalty

(5) If the Finance Minister makes an assessment or reassessment under subsection (4) and is satisfied that the person's non-compliance with the required steps in the notice was attributable to neglect, carelessness, wilful default or fraud, the Finance Minister may assess a penalty against the person equal to the outstanding balance of the overpayment when the penalty is assessed.

Time limit

(6) The Finance Minister shall not assess or reassess under subsection (4) more than 48 months after the end of the month in which the person received the overpayment.

Exception, where misrepresentation, etc.

- (d) sections 23 and 36, subsections 37 (1), (1.1) and (2) and sections 37.1, 38 and 39 of the *Retail Sales Tax Act* apply with necessary modifications.
