Hi Deputy,

Attached are the following chapters that staff would recommend sharing with the OEB, per our meeting with them earlier this week:

- Chapter 1 – Affordable and Accessible Energy
- Chapter 3 – Delivering Efficiency and Value
- Chapter 5 – Preparing for the Future (innovation)
- Chapter 6 – Climate Change (just sending the OEB the except on adaptation)

In terms of protocol, we're going to share everything with the agencies through the DMO, to ensure I have eyes on where all the content is.

Are you ok with sharing these chapters with the OEB?

Thanks,
Hillary
