Hi Deputy,

There are two briefings for the Minister next week. On Monday, we'll discuss the mega deck we haven't had a chance to brief him on yet, as well as the new deck Andrew requested at this week's LTEP planning meeting. We'll get this deck to you later this evening.

On Tuesday, time permitting, we would discuss the next three decks we briefed MO on last week. These decks reflect MO's changes at last week's meeting. The three decks for Tuesday will be:

- Renewables
- Encouraging greater customer choice
- Regional Planning

I've attached the renewables and customer choice decks here. The renewables deck has track changes that reflect our changes based on MO comments at the briefing last week. There were no changes to the customer choice deck. I've also attached the decision tracking document we shared with Andrew at our meeting this Wednesday, as that outlines the takeaways, in case you are interested. Hoping to get you the regional planning deck later tonight.

Ok to share these two decks with MO?

Thanks,
Hillary
