Hi Deputy,

Sorry for all the emails tonight.

Attached is the updated deck for the Minister that Andrew requested at wednesday's LTEP planning meeting. This deck reflects the 7 update items MO wanted to address in the PO deck, an overview of themes, and timelines, and high level engagement feedback.

The one thing I'll flag is that we would be having the theme discussion then with the Minister on Monday before we have that discussion with Andrew, which is scheduled for Tuesday.

This deck is very similar to the deck that we would use for PO, with the PO deck having more detail on consultations, and less on themes. That deck will follow.

For the mega deck, I've stripped out the timeline, because it's better placed in the update deck. All other content in the mega deck is the same as last time you approved.

OK to share these Minister's deck with MO?

Thanks,
Hillary
