Mr. Timothy O'Neill
Chair
Independent Electricity System Operator
186 Campbell's Way
Borden-Carleton PEI C0B 1X0

Dear Mr. O'Neill:

Thank you for hosting me at the Independent Electricity System Operator (IESO) Board of Directors meeting on August 30, 2017.

I want to thank the IESO for its support throughout the development of Ontario's Fair Hydro Plan, including the recent introduction of legislation and upcoming regulations. The IESO's continued work on implementing elements of Ontario's Fair Hydro Plan is greatly appreciated in light of the challenging timelines.

Our government has been working hard to mitigate system costs to put downward pressure on consumer electricity prices, and will continue to look for efficiencies wherever possible.

As you know, the province's 2017 Long-Term Energy Plan, to be released later this year, will focus on taking additional costs out of the system to address affordability beyond the short and medium term. Ontario has a robust energy supply and is in a good position to improve efficiency, increase transparency and enhance opportunities for innovation and competition to reduce system costs.

Our current position highlights the importance of the IESO's Market Renewal initiatives. The IESO's feedback and support is imperative to realizing the cost savings expected from the better utilization of existing assets, greater competition among resources, a reduced need to build new resources and a more flexible and cost-effective procurement process that will better reflect system needs.

I am pleased to have reaffirmed our commitment to ongoing discussions regarding opportunities for enhanced electricity trade between Ontario and Québec, based on the joint principles and goals of displacing greenhouse gas emissions, providing savings to Ontario ratepayers and providing value to Québec.

I look forward to our continuing dialogue as well as working together to ensure Ontario's energy system remains efficient, clean, reliable and affordable.

Thank you again and please accept my best wishes.

Sincerely,

Glenn Thibeault
