Hi Deputy,

Attached please find draft materials to support Tuesday's Net Metering briefing, including briefing deck, Ministry Approval Form, and Communications Snapshot.

Please note:

The Ministry Approval Form includes placeholders for ESP modelled system and ratepayer impacts (the form currently includes the impacts that we have previously provided). Given the need to prioritize reg drafting, CRED has not yet sought LSB review/approval of the Approval Form; they will seek review/approval next week, pending any feedback from the briefing. Comms has reviewed the Snapshot.

Other items to follow:

CRED has prepared a memo to be sent to Cabinet Office seeking an exemption of the Twice Annual Effective Date. We will receive that on Monday. CRED is also working on the Regulatory Impact Assessment; aiming to send that to you early next week.

At Tuesday's briefing, CRED has requested to discuss the possibility of seeking some leniency from Cabinet Office regarding deadline for delivery of final material. The drafting process has included some complexities as well as some unanticipated delays. LSB is staying in close contact with Leg Counsel in order to be kept apprised of progress. Whether or not CRED will need some additional time is not certain yet.

Let me know if the attached materials are ok to share with MO?

Thanks,

Monika
