---

Hi Mike,

Attached are the final versions of the Net Metering LRC materials consisting of:

- the Ministry approval form;
- communications snapshot; and
- the regulatory impact assessment.

Also attached are the latest versions of the draft regulations (password: afternoon). The sealed regulations are being finalized by legal. We should have them ASAP. While they're being finalized, in order to stay on the agenda as a non-discussion item CO has asked if in the meantime, they can get a signed approval form from the Deputy and an email from the MO expressing the Minister's intention to sign the package in this form as soon as the final regs become available. Would you be able to send a short email that I could pass along to CO?

Finally, also attached is an updated briefing deck which will be used during Wednesday's Minister's NM briefing.

Let us know if you have any questions.

Thanks,  
Martin
