Electricity Price Mitigation – TB/MBC Report Backs
(as per May 9 TB/MBC Minute)

Report Back Requirements	Expected Timing	ENERGY Comments
Sensitivity Analysis – Electricity Social Programs - Include electricity social programs with details of forecasting models and costing estimates, including assumptions, sensitivities analysis that would allow identification of risks to the fiscal plan for Broadening RRRP, OESP. The Ministry is to include similar information for the Ontario Rebate for Electricity Consumers.	August/September TB/MBC (TBC)	ENERGY and TBS staff to discuss further over the summer on what sensitivity analysis looks like for the programs.
Sensitivity Analysis – Global Adjustment Refinancing - Include a report related to GA Refinancing on findings from sensitivity analysis completed as assumptions vary, such as under different recovery rates, different interest rates, different demand, etc., and combinations of key factors, and then to quantify the likelihood of high/medium/low impact scenarios, with assumptions and methodologies clearly specified and documented.	August/September TB/MBC (TBC)	ENERGY and TBS staff to discuss further over the summer on what sensitivity analysis looks like given the Ministry is finalizing the LTPE.
Industrial Conservation Initiative - Direct the Ministry to report back through quarterly reporting process with results achieved versus expectations for the ICI program, impacts of the change for participation, and impact for ratepayers as costs are recovered from ratepayers.	Quarterly Reporting	ENERGY to provide updates through quarterly reports. Note: The expanded Industrial Conservation Initiative (ICI) is in effect. Expanding participation in the ICI program is expected to reduce cost pressures on the electricity system by empowering more consumers to lower their electricity demand during peak periods and reduce electricity bills for new ICI participants who are able to reduce their electricity demand during peak demand periods. Newly eligible participants have the opportunity to opt in to the program by June 15, 2017 for participation from July 1, 2017 to June 30, 2018.
Affordability Fund - Direct the Ministry to report back through quarterly reporting process with program details, including performance management framework, and multi-year funding profile, and fiscal plan implications.	Quarterly Reporting	ENERGY to provide updates through quarterly reports.
