Hi Deputy,

OMAFRA is asking for one wind power messaging to assist their call centre with the following request. Attached is CRED's proposed response, ok to share?:

What are ANY of the OMAFRA doing to stop the industrial wind turbine farms. The one in our area would only cost \$600,000 ONCE instead of \$1,800,000 a MONTH for 20 YEARS. Maybe some of the Sunshine list members would like to contribute to save the future of ALL people in Ontario
