Good morning Deputy.

1) re the OPG edits, good idea. Expanding the proposal beyond simply "borrowing" gives us more space to play in. Is this a SNAP or IGS lead or is both?

2) re fiscal impact of conservation, we just ran out of time Friday. Staff have added in the fiscal #s in the attached version.

3) re immediate rate relief with respect to Trillium, we assumed the money would be paid out evenly over the period. SNAP likely has some projects that would provide an immediate benefit. However, we can refine the #s in future drafts (i.e., tied to specific projects).

In the attached, I also made few additional edits for grammar and consistency terminology.

Hope this helps, Steen
