Hi Andrew,

We've accepted all of MO's edits and word-smithed the piece about market renewal benefits:

consultants The Brattle Group to develop a benefits case, which the IESO posted on April 20, 2017. The report estimates the net present value of the market renewal project to be in the range of \$2,200 - \$5,200 million. [This is expected to benefit industrial consumers by serving load and maintaining reliability at a lower overall cost.](#)

I understand you want to have the minister sign today – once we get the go ahead we can have it prepared.

Thanks,
Martin

Hi Andrew,

Please find attached a draft minister's AMPCO response letter for your and Craig's discussion. I understand we want to have the minister sign tomorrow.

Also attached for convenience is AMPCO's April 20 letter.

Thanks,
Martin
