Hi Trevor (and maybe Craig?),

Attached are two final EMMC MNs for your approval:

GE Canada - hot off the press as requested by MO yesterday.

CEEA – revised as requested (refocused the GOF Suggested Responses and added a HERD section), changes highlighted.

Craig – FYI: We added a Suggested Response about export support to the CanWEA note as you requested (see attached page 6 for reference).

Please confirm your comfort at your earliest ability **tonight or by 8am tomorrow at the latest** - if I haven't heard from you by then, we'll stick with these versions.

Thanks!

Eric Martin

Hi Eric and Martin,

Some comments on the meeting notes (both batches reviewed):

- IGUA – please add speaking points on SO2 (can be holding language: appreciate your concern; pleased to support in discussions with MOECC; etc.) and the Sarnia-TransAlta cluster situation (IGUA's note attached)
- CanWEA – in Siemens section, add speaking point on support and ongoing work on exports
- Quebec – joint letter was re: NEB Modernization Expert Panel report, not Environmental and Regulatory Reviews Discussion Paper

Reviewing MNs now and will send any comments through.

Thanks,
C
