Thanks Deputy, will do.

We will share the presentation with the event organizers, so they can have everything set up for you. We'll also have a memory stick for you with the presentation on it, in case you need it when you arrive at the event tomorrow.

So you have everything in one place, I've included the remarks, presentation, and the LTEP QAs in this chain, in case you would like the QAs to prepare for the roundtable discussion.

Thanks,
Hillary

Hi Deputy,

Attached are slightly revised speaking points for your presentation tomorrow at the roundtable. If you'd like, we could pare back some of the remarks around initiatives that the IESO is leading to avoid duplication. You will be speaking before the IESO, so you could set the initiatives up at a high level and leave the detail to Mike Lyle to speak about.

Would you like us to make any revisions to the deck or the remarks?

Thanks,
Hillary

Sounds like a lot of overlap.

Subject: RE: Energy Council of Canada Roundtable Presentation and Remarks

Hi Deputy,

We have heard from the IESO that Mike Lyle will be presenting in place of Peter Gregg on Wednesday. His remarks will focus on the following:

- IESO's mandate in Ontario's electricity sector and key initiatives
- How Ontario's energy sector has changed in recent years
- Putting WEC report into an Ontario context
- Trends in Ontario's electricity sector, per the LTEP, and how the IESO is responding or taking a leadership role in overseeing efforts:
- Conclusions - What do energy scenarios tell us about Ontario's energy future?

Confirmed attendees for the session are:

Name	Affiliation
Sunil Kumar	Ind. Member
Murray Stewart	ECC
Robert Cumming	Lafarge Holcim
Graham Campbell	ECC
Brigitte Svarich	ECC
Colin Andersen	ECC
Chrisoph Frei	WEC
Ted Gruetzner	OPG
David Collie	ESA
John Muir	Energy Council of Canada
Oskar Sigvaldason	SMCS Global
Frank Carnevale	Bridgepoint Group Ltd.
Bryan Kneller	Ledcor

Thanks,
Hillary

Great. Any luck in getting the names of the people attending the Roundtable. It's at the IESO.

Hi Deputy,

Will do. We'll add that graphic in, and a few speaking points to accompany that slide. We'll aim to get this back to you as soon as possible tomorrow.

Thanks,
Hillary

Looks good. Is it possible to add the slide from LTEP on the supply mix compared to Great Lake states?

Hi Deputy,

I've taken a stab at rearranging the technical deck and remarks so they fit a bit better with what you'd like to say at the Energy Council of Canada roundtable on Wednesday.

I've tried to cut back on content a bit, but we can cut back more. I think you mentioned wanting to discuss the Great Lakes. The messaging around how our prices compare to the Great Lakes states is included in speaking points for the industrial pricing slide, but ESP is thinking about what a stand-alone slide could look like. For the key themes/initiatives slides, I tried to keep them to what would be most relevant for this event. I think you had mentioned climate change (decarbonisation) and innovation as key items you wanted to discuss. I've also included conservation and energy efficiency as a third, but we could replace that with something else, if you'd prefer.

These still need to go through divisions and comms to finesse some of the language, and to ensure everything is fact-checked, but I wanted to get your feedback to see if this matches with what you want to say on Wednesday. I've attached clean and tracked versions of both the presentation itself, and the speaking points.

Does this approach work for you for the presentation?

Thanks,
Hillary
