Good Morning:

Right – sorry, confusion in my note. I only need English for media gallery walk this morning. For clarity, would be embargoed until Minister's press conference, but this is being done in place of a full technical briefing.

PO is also following up with us and I think we have hit some minor version control issues. Your help in resolving with CO would be most appreciated.

Many thanks, in advance.

Andrew,

Translation takes at least 3 hours so 9:45 is not possible.

Hi James,

I think you've made your edits to an old version of the NR. Can you please use the version I sent at 8:46pm and add your updates to that one. We can then take a look in the AM and let you know if we have any concerns.

Thanks,  
Martin

Added three bullets from March 2 BG to BG under Energy Sector Efficiencies section. Also attached with edits, are PO's changes to the NR. I've rejected two (around the inflation language), but the others look fine. Pending any concerns from ministry, these should be good for translation.

PO just responded to us asking for LTEP bullets from the "Energy Sector Efficiencies" BK from back in March to be added into that section of this BK.  
Standby, James is brokering and can send you a new BK shortly.

Hi James,

Other than the typo on "delivering" the edits to the NR look fine.

Attached is an updated backgrounder reflecting Andrew's comments.

We'll share these with CO and then work on translating.

Thanks,  
Martin

Attached are the NR & BG. NR has changes from PO and CoS's requested changes are included in the BG. We'd like to send these versions off for translation.

Hi Andrew,

Please find attached the backgrounder and the news release for tomorrow. Both have been slightly updated – the backgrounder to reflect feedback in the meeting this afternoon (wording about IESO and OPG, and adding in the sector efficiencies bullets from March 2), the news release to be consistent with the backgrounder changes (minor changes).

Please let us know if these are ready to go for translation.

Thanks,  
Martin

Hi.

Do we have the updated / final backgrounder? With those additions late day?

Just en route back from my meeting and can't find it in box?

Tracking?
