Attachments: OCC Report (Empowering Ontario) - Oct3116 - Clean.docx (24.38 kB); OCC Report (Empowering Ontario) - Oct3116 - Tracked.docx (33.78 kB)

Please find an updated version of the note attached (tracked and clean) for your review. Please let me know if further changes are required, or if this is ok to go to MO.

Thanks,
Lauren

Subject: Re: For Approval: Background/Messaging for Premier's Policy Note

Hi. This should focus upfront on the 8 percent rebate that will help small business. Should clarify that this is in addition to HST input tax credits they already enjoy.

Hi Deputy,

Please find attached for your approval background/messaging, which has been requested by Municipal Affairs for a policy note they are putting together for the Premier's participation in a CEO roundtable put on by the Ontario Chamber of Commerce, in advance of the Ontario Economic Summit. They have requested background and messaging on the following issue to add to their report:

The Chamber issued a [report](#) saying Ontario needs to keep costs competitive. OCC survey results show that one in twenty businesses in the province expect to close their doors in the next five years due to rising electricity prices.

Is this ok to share with MO?

Thanks,
Lauren
