Hi Deputy,

We have shifted the price mitigation materials up front – does this work better?

Thanks,
Denna

Hi. This doesn't work. Should focus more on the mitigation measures up front.

Sent from my BlackBerry 10 smartphone on the Rogers network.

Subject: For Approval: MCSS Request for Hydro Rates Messaging

Hi Deputy,

MCSS has asked for our latest HBNs/KM related to hydro. Their Minister is hosting/attending a number of Basic Income Consultations in the next few months and their MO would like some on hand messaging if hydro rates are asked. Is it ok to share the following note – A1b Residential Electricity Prices(after MO approval)?

Thanks,
Denna
