Hi Andrew,

We've made your changes below. We also caught a couple small things, highlighted in the attached. The first change on page 5 is to reflect that the current wording did not reflect that conservation is part of supply.

If you're comfortable, we'll clean these up, and use for this afternoon's Minister's briefing.

A version of these have also gone for translation.

Thanks,
Martin

Good Evening:

I don't like the line in orange text font colour about ICA on the very bottom of page 2. Just cut that.

"Lifestyle" comment about rate plans should stay in; this is what he has been saying from OEA and Barrie event.

The other edits are fine.

Thank you.

Hi James,

Attached are our edits to the remarks. Let us know if you have any questions.

If you're comfortable with the attached, we can move these through for translation.

Thanks,
Martin

Hi Martin – here are the edits I mentioned. Much of the additions are stock language so hoping this doesn't make the approvals process too cumbersome.

Let me know if you have any questions or concerns.

Thank you!

Hi Martin, hope you're having a restful weekend.

Please see attached Minister's remarks for DFC launch day, to be delivered immediately following the technical briefing. Can you please have these fact checked and a track-changed version back to MO by eod tomorrow? Once MO/DMO approved, we'll want them translated in their entirety. Would prefer only concerns with factual information in the content be flagged/adjusted by ministry.

Any Qs/concerns, please let me know.

Thank you!

James
