Hi Deputy,

In addition to updating the slide deck, divisions reviewed the remarks that were used during the technical briefing, and have made some updates for you for the Hydro One presentation. These reflect some of the new content included, and also reflect some other updates to make language clearer. I've attached a track changed version so you can see how these have evolved since the technical briefing speaking points.

Would you like to share these with MO so they know what how the presentation would go?

Andrew also asked to set up a meeting next week to rehearse the deck. Are you ok with us setting that up?

Thanks,
Hillary

Hi Deputy,

Attached is a clean and tracked version of the deck for Hydro one's board that reflects the changes we discussed and a small change from CRED to the net metering bullet on slide 16.

Ok to share with MO?

Thanks,
Hillary
