Is this more what you are looking for – we moved the 8% up, and then transitioned into the additional measures that can be used for low income customers.

Hi Deputy,

Attached is a version that has moved the 8% up front.

OK to share with MO/TBS?

Thanks,
Denna

Hi. Not sure why we wouldn't highlight the 8 percent upfront?

Hi Deputy,

TBS is preparing a note on energy poverty and asked for messaging relating to low-income populations. SNAP updated our latest Low-Income HBN, which now includes messaging on price mitigation measures. I have attached with clean and tracked versions. OK to share with TBS/MO?

Thanks,
Denna
