Dear Serge,

Thank you for your prompt reply on the Affordability Fund proposal.

We at Hydro One were delighted to have had the opportunity to meet with the Premier and her staff last week. As you are aware, affordability of electricity for customers is something we have been advocating for some time now. We are very pleased the province is considering the concept of self-administered affordability funding for Hydro One and other LDC's.

Hydro One would be happy to shoulder the responsibility of facilitator and/or administrator of the affordability funding as we have the expertise, systems and trained staff to support such a role. Both myself and my team would be pleased to discuss this further at your convenience.

My best,
Mayo
