Ok. The end of the program through LGIC should also be removed.

Sent from my BlackBerry 10 smartphone on the Rogers network.

Hi Deputy,

I can let the team know about removing the reference to the cap.

Thanks
Hillary

Good Afternoon:

I have connected with PO CoS and can confirm the direction that was already provided at last week's FPC meeting was to remove the cap, not to revisit it.

Please scrub from both submission and legislation.

We are aware that, should Government decide to implement a cap in future, then it would, therefore require legislative amendment as opposed to quick trip to LRC, however the communications risks about a "secret plan to claw back the benefits" are not worth the risk of intended legislative / regulatory expediency.

Thank you.

Andrew Teliszewsky
