Hi Deputy,

Attached is the second deck that has been prepared for the briefing with MO Tuesday next week. This is a short deck on LTEP themes to get the conversation started on the overarching narrative on LTEP. The indigenous deck will be ready Monday morning.

OK to share this themes deck with MO?

Thanks
Hillary

Subject: LTEP Briefing for MO Tuesday

Hi Deputy,

We are planning to discuss conservation, Indigenous capacity and leadership, and themes with MO on Tuesday next week.

Attached is the first deck, on conservation. This deck provides some further detail on the conservation initiatives. These changes are tracked from the most recent draft of the deck. One thing I'll flag is that staff deleted (as you'll see in strikeouts in the attached) initiatives they don't feel need further direction following the last briefings. I wanted to seek your comfort with deleting them altogether. Alternatively, we could keep them in but create a separate non-discussion item section in the deck. In the other decks for MO in this round of briefings, we haven't fully deleted initiatives yet.

Are you comfortable with deleting the initiatives, and ok to share a cleaned up version of the deck with MO?

Thanks,

Hillary
