Hi Deputy,

MO had a few comments on the pink note below, which have been reflected in the attached version. We've added a comment for CO to pull the examples from the Cabinet submission on reliability guarantee in the pink note, and reflected the editorial changes. In terms of the comment about our climate change adaptation comments, we've just made some edits to the language in the note and noted we aren't looking for funding from TB/MBC for adaptation.

MO edits:

- Under Enhancing Reliability, the examples of money-back guarantees from the US/UK should be added
- Under Grid Modernization, second bullet, "to" should be deleted ("Ensuring utilities create plans")
- Climate Change Adaptation: can't see the comments, but will defer to staff on whatever they said
- Under Regional Planning Review, change "at community energy planning" to "with community..."

OK to share the attached with MO's incorporated edits back with CO?

Thanks,
Hillary

Subject: LTEP Cabinet Pink Note

Hi Deputy,

Attached is a draft of the pink note, with Ministry comments/edits included. Note that this version does not include the minute, as we are still working through that separately. CO is looking for our changes today.

Ok to share with MO?

Thanks,
Hillary
