Here are my comments on the annual report if you want an advance look or want to work ahead for noon. Will send another email with the second half as the file is too big for a single attachment.

I feel strongly that the description of the legislated accounting should be short and pithy, and instead of the controller's message it should be in the guide to the Public Accounts. We should also talk about legislation once (where we describe it) and refer elsewhere to the change in the accounting treatment. My changes reflect this approach.

Pls hold off on making any changes to the Minister's Foreword as we should wait for MO feedback.

Thanks to everyone who has been keeping track of multiple versions of this document.

Greg
