I¹m good with this language. I have only the most minor of suggestions, but given the sensitivity around following the statutory requirements it may be a change worth making.

Paragraph iv of the minute has a section that starts with ³In this regard². This section actually applies to all parts of paragraph iv (i.e., the Minister of Env and Climate Change will evaluate all spending proposed to be funded through the GGRA (both the $1.08B and the $0.24B), so this "in this regard² section should not be as far indented to make it look like it only applies to paragraph iv., section b. I¹ve made the change in the attached.

Greg
