

Pass the Ontario Fair Hydro Energy Plan

To the Legislative Assembly of Ontario:

WHEREAS electricity prices have increased and in some cases become unaffordable for Ontarians

WHEREAS Ontario is a prosperous province and Ontarians should never have to choose between hydro and other daily necessities

WHEREAS Premier Kathleen Wynne has re-committed to addressing the everyday needs of Ontarians

WHEREAS the Ontario Fair Energy Plan would reduce hydro bills for all Ontarians by an average of 25% for families, farms and small businesses.

We the undersigned petition the Legislative Assembly of Ontario as follows:

Pass the Ontario Rebate for Electricity Consumers Act and provide relief for Ontario electricity consumers as quickly as possible.

Continue working to ensure clean and affordable electricity is the right of all Ontarians.
