Hi all:

We have a call with the OEB at 10:05 a.m. We can use language from the letter that the Minister sent to MPP Brown last week and massage the language we get from OEB into any questions about potential impact on urban H1 customers to draft a statement – customers not eligible for rate protection through RRRP.

Propose that I walk the gallery before Brown's 2:45 event to deliver message of: is Patrick Brown finally releasing his plan for the electricity system – to deny utilities the opportunity to maintain a reliable system and make necessary investments? Freezing distribution rates in the late 90s/early 2000s is why we were left with an unreliable system -- brown outs, black outs, and smog days put Ontario's economy and our people at risk. MPP Brown is willfully misleading Ontarians – the Fair Hydro Plan makes room for needed investments to the system while reducing electricity bills by 25 per cent on average, up to 40 to 50 per cent for low-income and customers in eligible rural and remote communities – while keeping any increases to the rate of inflation for four years. And, why didn't the Leader of the Opposition speak out when Innpower – serving South Barrie and Innisfil – put forward a rate application to the OEB? Happy to chat approach.

PC Leader Patrick Brown will address the mounting concerns about an unfair and unaffordable Hydro One rate hike request, and will present thousands of letters from Ontarians opposing this rate hike which will be delivered to the Ontario Energy Board immediately following the event. Queen's Park front lawn.
