Some helpful stuff here from Health. Don't think it changes the narrative I flipped you earlier (which the P would use) but we can definitely pull some of the specific examples if necessary.

Also attaching a hospital funding breakdown chart Katie and I have put together. Will be helpful to highlight the funding increases hospitals across the province got last year.

Hey

Sorry for the delay –flagging that these notes are still a work in progress. Specifically framing the 1.6% and the hospital costing examples (still waiting on feedback from comms and my chief).

But here is a sense of where we are going with this...

Also, attached are the numbers I was able to pull in case you can think of any other ways to frame this!

Let me know any suggests edits/concerns etc.

Katie
