CMR FM 101.3 Voice Radio Hindi: cut planned - Hindi (2017.0
Description: Tamrin and Jatin - Electricity bills in Ontario will see an average 17% to 20% cut this summer, a year before the provincial Liberals bid for re-election. Ratepayers will get relief of between \$75 and \$120 or even more on hydro bills. Ratepayers happy with hydro relief this year will support the Liberals in the upcoming provincial elections. However, they will have to pay longer for this relief. They will pay the cost of this reduction for up to the next 30 to 40 years. Perhaps consumers will see reductions in mortgages and taxes in the coming days in order for the Liberals to win the election. The program says, 'Let's see whether this ploy works for her [Premier Kathleen Wynne] to win the election next year.'
