Good Evening:

Please find enclosed the Ministry of Energy Legal Services' "working draft" of the product for briefing the recognized parties in the Ontario Legislative Assembly on the proposed Ontario Fair Hydro Act.

To be honest, I'm starting to question the necessity here, but take my cue from PO / GHLO on this bit.

With all the floating pieces, we should determine what kind of work-flow Issues / Communications would like to see for next week, since I'm probably not the only one feeling a bit "under water" (bad joke?). Getting the TB/MBC / LRC / CAB submission settled this weekend will be a huge relief and "should" create some more bandwidth for collateral products.

Certainly hope that folks are keeping well.

Please let us know if you have any edits or suggestions here.
