Hey Sebastian,

These notes look great. I think you should add a few lines about why this would be on the rate base rather than the tax base, your Minister did an excellent job in the avail on that, you can just pull exactly what she said. I have attached the transcript.

Also you should have a few lines about our motivation on this – to reduce energy bills.

The goal today is to be calm cool and collected, explain our case and don't take the bait from the opposition.

Hi Bill,

I'm currently in estimates until 6pm, but I can flip them to you tonight if that's alright?
