Hi Rebecca,

Yes 10:30 works for me as well.

Thanks for the list below. A few responses:

I'm not sure whether Mac block has been booked, but Shannan may have it on hold. If not, happy to reach out tomorrow morning.

I can connect with CO about getting Scott confirmed to moderate.

On products, yes, happy to get the updated master list from Energy.

Regarding the next turn, we can send back the NR with our changes, unless you'd rather it go to Bevan and others now for a quick look. Either way they will come back for final approval, so my recommendation would be to wait and send next turn (hopefully by EOD tomorrow) to full senior staff list.

Bryan

Subject: Thursday announcement

Hi, thinking ahead to Thursday's announcement and Wednesday cabinet and the pieces we need to finalize. Wondering if this group can get together tomorrow at 10:30 to connect in person and hash out outstanding details. Should I invite anyone else? Bill/Forge I know you have QP but hoping one of you can attend?

A number of outstanding things I'm worrying about. Can you guys read carefully and respond where relevant?

Logistically - we'll need to book the space in Mac Block for tech briefing and announcement. Some questions about that for Bryan and Shannan:

1. Has this been done yet?
2. Can we get Scott blodgett to moderate? And co-ordinate set up of the space?
3. Q for issues - what about opposition briefing? How do you want to handle?
4. We need to produce the visuals. Podium board language which will focus on 25% and large poster size photos of energy infrastructure as the backdrop (similar to what we did for Hydro announcement with transit and transportation infrastructure photos). Ann and Bryan can you work with CO marketing to produce those?

For products, Gen and Bryan can you guys connect to make sure we have a master list of products? Energy had a pretty good draft list. The priority is a package to take to Cabinet on Wednesday which shld include:

1. Final Premier's statement (delivered Tuesday)
2. NR
3. Radio scripts - Ann can you circulate most recent versions? We shld use 25%
4. Mockups of government social ads - Ann can you advise on status of these?
5. Podium boards
6. Background graphics
7. A selection of backgrounders

We will also need shareables from CO to be added to product list

Bryan, energy is asking when they're getting next turn of products back. Can you advise on status?

Let me know if there are things I'm missing

Thanks guys.
