

NDP – Always Opposing

- I will give the NDP credit where it's due – they're very good at opposing.
- At almost every turn, the NDP has said "no" to our plan.
- The reality is that they're saying "no" to a plan that is growing the economy, creating jobs and helping Ontarians in their everyday lives.
- When we promised to help eligible Ontario seniors by making the shingles vaccine free and making hospital parking more affordable, they said "no."
- When we promised to make average college or university tuition free for students with financial need, they said "no" too.
- And now, as we reduce bills by 8% and cut delivery charges to the most rural customers by 20%, they seem to be opposed to that as well.
- These are real, tangible wins for Ontarians that are helping them in their everyday lives.
- Yet the NDP continue to oppose them.
- And, as always, they oppose our plan without suggesting an alternative.
- Let's not forget - their last "plan" came in a 9 page pamphlet.
- Not even the PC Leader could flip-flop in the time it took to read.
- What that pamphlet showed is that they have no plan – they still don't.
- They have no interest in policies that benefit the people of Ontario.
- They're only interested in opposing for the sake of opposing.
