Hi everyone,

Following up on the posts below.

Thanks!
Jen

Hi everyone,

Please see the posts below for approval by 3:30. I'll be posting the copy below with the phone call photos from yesterday, because the Premier was on speakerphone for the calls this morning and it doesn't really look like she's on the phone in those shots. (Luckily she was wearing a scarf for the phone calls yesterday so you can't tell it's the same outfit as the announcement.)

Thanks!
Jen

Over the past few months I've connected with people who have written to me about hydro. The rate hikes households have been seeing in recent years were not fair. It was great to be able to speak with some of them again today to let them know that yesterday, I announced a 25% reduction to hydro bills starting this summer — right across the board. In addition, your bill won't increase beyond the rate of inflation for at least 4 years. Thank you to everyone who wrote me or spoke to me about this issue. As your Premier, it is my job to listen and take action and that is exactly what I am going to continue to do.

Lately I've been speaking with people who wrote me about hydro. Pleasure to speak with them again to tell them about 25% off bills.

For the past couple of months I've made a point of connecting with people who have written to me about their hydro bills. I've called them up or sat and talked and listened. The rate hikes households have had to deal with were not fair. So it was great to be able to speak to some of those same people again today to let them know we've listened, and we're taking action. Yesterday I announced a 25% reduction to hydro bills starting this summer — right across the board. We're restructuring the electricity system to be fairer. With the 25% cut in place, your bill won't increase beyond the rate of inflation for at least 4 years. Thank you to everyone who wrote me or spoke to me about this issue. As your Premier, it is my job to listen and do what's in the best interests of people across the province and that is exactly what I am going to continue to do.
