One edit:

Our government's plan to build a stronger, healthier Ontario includes historic new investments in health care, including free medications for everyone 24 and under through OHIP+: Children and Youth Pharmacare, providing free tuition to over 210,000 students and on-the-job learning opportunities to help land a great job, helping 100,000 kids access quality, licensed child care, making everyday life more affordable by reducing electricity costs by 25 per cent on average through our proposed Fair Hydro Plan, and taking action to make housing more affordable for homebuyers and renters through our Fair Housing Plan.

Hi Rebecca,

Just checking in to see if you have any revisions to the new boiler plate. I'm hoping to include it at the bottom of Today's News today if possible.

Thanks,
Eileen

Subject: For Approval: Boiler Plate

Hi Rebecca,

Hi Bryan,

Caroline Banas has asked about a post-budget boilerplate to share with caucus. Bryan drafted this new boiler last week. Can you please take a look and let me know if you have any changes?

Thanks!
Eileen

New

Our government's plan to build a stronger, healthier Ontario includes historic new investments in health care, including free medications for everyone 24 and under through OHIP+: Children and Youth Pharmacare, providing free tuition to over 210,000 students and on-the-job learning opportunities to help land a great job, helping 100,000 kids access quality, licensed child care and making it more affordable for families, making everyday life more affordable by reducing electricity costs by 25 per cent on average through our proposed Fair Hydro Plan, and taking action to make housing more affordable for homebuyers and renters through our Fair Housing Plan.

Old

Our government's four-part economic plan to build Ontario up invests in people's talents and skills, including helping people get and create the jobs of the future by expanding access to high-quality college and university education. It includes making the largest infrastructure investment in Ontario's history — \$160 billion over 12 years — part of which is our Moving Ontario Forward plan to build roads, transit and infrastructure. Our plan includes fostering a dynamic, supportive environment for business to thrive, including investing in a low-carbon economy driven by innovative, high-growth, export-oriented businesses. And it includes creating a secure retirement pension plan for workers to have the retirement they deserve.
