Hi Gillian, Niloo – I hope this email finds you well.

See attached/below. Apparently, this idea is coming from Ministry of Energy – really stupid idea, if true, for a number of reasons.

Perhaps you could put in a word of advice to their team?

Cheers, Tom

Subject: The Clean Energy Adjustment

Hello fellow supporters of clean energy,

Please see the attached memo from Environmental Defence concerning a request that the proposed "Clean Energy Adjustment" be renamed.

It is our opinion that the current proposal is misleading and will be damaging to Ontario's commitment to clean energy and a clean economy.

We've sent this in to a number of folks inside the Ontario government. I am sending it to you in the hopes that you can send in a supportive note on this matter too. And please share with any colleagues who I may have missed here.

Happy to discuss if you have any questions or concerns.

Keith Brooks

Programs Director
