Subject: Affordability metrics

Hi all,

We've been asked to pull together a list of affordability impacts of our policies. We need to define, in as concrete of way as possible, what the impact of the policy is on people's pocketbooks. I realize this is easier for some issues than others.

Below is a preliminary list of policies we need this for, but please add to it.

Please send the first cut at this to Gen and I by Friday. If you have questions, please let us know.

Thanks!
