Hi ECs,

In preparation for Friday's leg planning meeting, attached is an updated copy of the summary document and detailed tracking grid of leg planning items. The changes from the last versions are highlighted, which include what I understood was discussed last week and/or tracking changes noted afterwards (e.g. at POCO).

Can you please review, and in particular the **highlighted and red areas** in both documents, to ensure these are captured correctly? I also tried to capture as much as possible for the Spring buckets; however, I understand you may be having further conversation about these (and potentially other) items, including policy/mandate/operational implications of timing. As noted, I will try to engage SRB on the identifying mandate items; however, welcome your feedback on that as well.

Let me know if you would like to discuss in person beforehand, otherwise, I appreciate any changes by **Wednesday end of day**.

If you have any questions, please let me know. Thanks!

Lucia Frndova
